Product Introduction

A – Vir Plus is an advanced botanical and nutritional formulation designed to support natural immune defence, liver health and antioxidant protection in poultry. Its carefully selected ingredients help maintain physiological balance and support birds during viral challenges, environmental stress and periods of reduced immunity.

Key Benefits

Antiviral Support
Supports natural defence mechanisms during viral challenges.

Immune Enhancement
Helps maintain normal immune-system function.

Liver Protection
Supports healthy liver function and metabolism.

Antioxidant Defence
Helps protect cells against oxidative stress.

Stress Management
Supports birds during environmental and physio-logical stress.

Gut Health Support
Helps maintain digestive health and nutritional balance.

Recovery Support
Provides complementary nutritional support during disease recovery.
