Product Introduction

IBH Nill is an advanced botanical formulation enriched with carefully selected herbal extracts, natural antioxidants and liver-supporting ingredients. It is designed to support liver function, strengthen natural immune defence and maintain physiological balance in poultry during periods of environmental, nutritional and disease-related stress.

Key Benefits

Liver Function Support
Helps maintain normal hepatic function.

Antioxidant Protection
Helps protect cells against oxidative stress.

Immune-System Support
Supports natural immune defence mechanisms.

Botanical Protection
Combines selected herbal extracts for nutritional support.

Stress Management
Supports birds during environmental and nutritional challenges.

Overall Bird Vitality
Helps maintain physiological health and performance.
